

- PRESS RELEASE -

**Looking for the Ultimate Healthy Romance? dnaPower Inc and DNA Romance have created the world's first DNA partnership to bring you healthy diet information and romance based on your unique DNA.**

**Excerpt/Subheading:** Using your DNA to find dates or develop a personalized diet plan!

February 8th, 2020 – **FOR IMMEDIATE RELEASE** - Vancouver, BC-

Looking for health and love? [dnaPower Inc](#) and [DNA Romance](#) are pleased to announce their strategic partnership to provide customers with a world's first – a personalized diet plan and online dating matches based on your DNA. You can [upload your raw DNA data](#) (from 23andMe and Ancestry.com) to either dnaPower Inc to receive your health reports tailored to your genetics, or DNA Romance's web app to receive a biocompatibility report for you and your partner; what's more, you can get matched with other singles using DNA Romance's online dating platform. Imagine knowing if you are genetically compatible in love and diet as you enter into a relationship!

dnaPower Inc and DNA Romance are both headquartered in Vancouver, British Columbia, leveraging their geographical proximity and Canadian values to create a first of its kind partnership. Dr. Timothy Sexton, the founder of DNA Romance, is now a scientific advisor to dnaPower Inc, and Dr. Lois Nahirney, the founder of dnaPower Inc, is a business advisor to DNA Romance.

dnaPower Inc provides the most comprehensive preventative health DNA testing available for [diet](#), [fitness](#), [health](#) and [brain health](#) with over 70+ areas and 200+ genetic variations tested. Their easy-to-read personalized reports help clients make smarter health decisions grounded in personal genetic data. DNA Romance use genetic markers to forecast "*romantic chemistry*" between online dating matches. Use dnaPower Inc and DNA Romance together and truly find a healthy romance! Imagine knowing in advance if you and your love interest are lactose intolerant, or both better on a keto diet. Get your DNA analysis today. Simply upload your raw DNA genealogy data, or order an at-home DNA collection kit from DNA Romance or dnaPower Inc.

**About DNA Romance**

[DNA Romance](#) is a DNA matchmaking app that uses **your DNA to predict romantic chemistry between you and your match online**. DNA Romance also uses Myers–Briggs personality types to determine **personality compatibility**. Like other dating apps, users also see a photograph of each match allowing them to evaluate attraction to **appearance**. The company was incorporated in September 2014, launching the DNA matchmaking app in September 2017.
